PLAN

Consultation <u>1</u>	Student log	Date/Time/Venue
Connect with Learning Facilitator Establish GL expectations Tasks for Refined Learning proposal discussed, agreed for production	Key points discussed: 1) The learning facilitator would be facilitating the growth instead of pushing for growth. 2) We need to help ourselves by preparing our work beforehand and keeping ourselves on task. What I must produce for next session: 1) Reviewed Version of Proposal. 2) Student Profile Fact Sheet. 3) Update AVS/SVA. Reflection on my learning progress so far: My learning is dependent on myself, how I would like my pace to be. Like my course journey, I would need to reach out if in need of help but not solely rely on the help and help myself by finding other means of learning. This can be taken back to my lessons online; I try to prepare for lessons first and not wait for the lecturers to give the lecturers before trying. I feel that this project is going in the right direction, I am on pace with my work. I am less worried and lost about the project. I need to not impose too much stress upon myself.	10 April 2020 2PM Online
Consultation 1A	Key Points discussed: 1) To narrow down who my audience for this project is. 2) I would need to come up with solutions to the issues I face. 3) Resourcefulness can help to solve issue I face. What I must produce for the next session: 1) Refined Proposal Draft 2 2) Learning Contract Draft 2 3) Draft / Plan for E-Portfolio	24 April 2020 2PM Online

Reflection on my learning progress so far:

The lesson that most strikes me this week is to be one who can find solutions and act on them to solve the problems I face. Using the resources, I can find to help me overcome challenges. This can be related back to the challenges I face in life; I can find other means like videos to help supplement my learning in school. To act on my solutions rather than questioning my solutions too much.

Assigned Tasks for Research on project, project work and e-Portfolio curation completed Next steps to progress research, project work and e-Portfolio curation discussed and agreed for production Tasks to monitor progress and close gaps in research, project work and e-Portfolio curation discussed and agreed for production	<p>Key points discussed: Research</p> <ul style="list-style-type: none"> - Need to do research to find primary and secondary sources <p>What I must produce for next session:</p> <ul style="list-style-type: none"> - Primary and Secondary sources - Research material - Drafts of brochures - E-portfolio reflection from plan - E-Portfolio summary on research <p>Reflection on my learning progress so far: I am slowing down in work and need to consistently need to focus. This is due to the burnout from HBL.. I need to keep myself on track so that the project can be a success.</p> <p>The lesson that stood out to me the most was to be consistent. Although I may tire out, I have to remind myself to keep focused on the task at hand. As I venture out into the vet industry, it will get tiring, that's when I need to take breaks and reboot myself to work better. I have tried to remain constant in the work I do for my project, but am beginning to lag behind with the other work I have to do for my other modules. I should take a small break to reboot myself this weekend, allowing myself to be able to jumpstart and work more efficiently.</p>	29 May 2020 1300-1325hrs Online
